DAILY EATS FOR DOGS

Our Daily Eats dog treats is a range of fun everyday dog treats. The specially designed shape and texture of our toothbrushes and jungle animals help clean teeth and gums; they also have added calcium! They are made with real chicken which makes them so much more palatable than meat free equivalents. Plus they are grain and gluten free!

Our best-selling hot dogs are made with 87% human grade quality meat and dogs just love them! They are easy to break or chop up for multiple treating and are perfect for training and reward. The hot dogs are gluten free and individually packed and sealed for freshness.

Our training treats are grain and gluten free and hypoallergenic. Made with either 70% Lamb or 70% Salmon they are highly palatable and are a brilliant and healthy training and reward treat!

MAGIC BONE™

Magic Bones contain absolutely no rawhide and are easily digestible. Every treat is made with real healthy ingredients that dogs just love, including chicken, beef and vegetables. This makes them so much more palatable than rawhide whilst still helping to keep dogs occupied and their teeth healthy! It is a fact that our meat content is typically much higher than our competitors, for example all our Magic Bones are made with a minimum of 45% chicken!

Our filled Magic Twists are made with real chicken and also wrapped with tasty chicken on the outside. We have also added peanut butter flavour and dogs go crazy for them!

DR DENTAL

Our Dental Sticks are textured to help reduce tartar and reinforce gums. We have added Vitamin A which supports healthy eyes and helps to boost the immune system and Vitamin D3 which supports the growth of strong and healthy bones. They are also low fat and are available in consumer packs of 7 and 28.

Both our Superveg and Superfruit Log Bones have a creamy yoghurt filling that dogs just love! Both have added Vitamin A and Vitamin E for healthy eyes, healthy bloodstream and to help boost dogs immune system. They have no artificial flavours and are low fat.

Our Dental Chew is a long lasting chewy treat that has a smoked flavour for extra palatability. As with all our Dr Dental treats it helps to reduce plaque and tartar build up. As you can see Saffy our Golden Labrador loves these treats and her teeth feel so much cleaner afterwards!

Tonics

Ha-Pee Lawns Tonic is unlike other products on the market as the blend benefits both your lawn and your dog! It reduces burn patches on lawns caused by dogs urine by reducing and neutralising the ammonia and alkalinity in the urine. Ha-Pee Lawns is made with herbs which help to detoxify and maintain a healthy urinary tract. In controlled tests 8/10 owners saw an improvement in just 3 weeks!!

You can't blame it on the dog anymore when using Windy Hound! This specialised herbal blend helps promote a healthy, calm digestive tract and helps to break up and disperse gas. Windy Hound is nutritionally balanced, 100% natural and rich in vitamins and minerals.

Anxiety Herbal Tonic is ideal for using as a daily supplement for anxious or nervous dogs, or before stressful situations such as fireworks or car journeys. The tonic provides natural calming and settling qualities and is designed to support dogs both mentally and physically.

Senior Herbal Tonic helps keep your ageing loved one fit, happy & healthy. It is designed to aid circulation, mobility & ageing brains. The tonic is a nutritionally balanced, specialised blend and is rich in vitamins and minerals.

BioSafe™ Germ Smart Dog Toys

BioCote Protected. A more hygienic toy for your pet and your family.

BioCote is an antimicrobial technology.

An antimicrobial is something that prevents the growth and survival of microbes including bacteria, mould and fungi.

BioCote technology protects surfaces from microbes resisting the potentially negative impact they can have on a product, resulting in a number of benefits.

BioCote technology will:

Make a product more hygienic, if it is likely to host microbes harmful to human health.

Keep a product fresher for longer, if it is likely to host odour-causing or staining microbes.

Extend the usable lifetime of a product, if it is likely to host microbes which might degrade the surface.

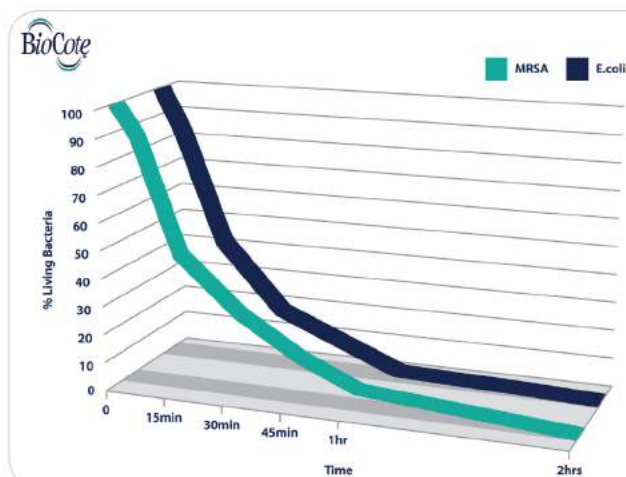

What does BioCote technology do?

BioCote technology provides long-lasting protection to a product by creating a surface upon which microbes cannot survive. It therefore reduces the level of microbes on a surface.

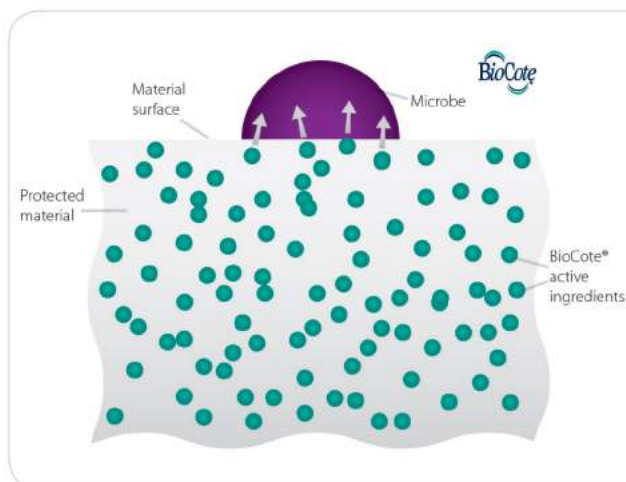

Lower levels of bacteria means improved hygiene and reductions in staining, odours and premature degradation of materials.

BioCote technology:

- Is proven effective against a wide range of bacteria, fungi & the H1N1 virus
- Reduces microbes by up to 99.99%
- Significant reductions within 15 minutes
- Up to 99.5% reduction in just 2 hours
- Works continuously for the expected lifetime of the product

BioCote technology protects products by binding with microbes contaminating its surface. Microbes do not survive being exposed to BioCote® technology.

BioCote technology is an ideal way to maintain a more hygienic product surface between cleans.

It prevents the growth and survival of microbes by:

- Stopping cells from reproducing
- Damaging the cell wall
- Disrupting energy production and other cellular functions

Cooling Toys

The Cool Soak toys will keep your pet feeling cool during summertime play. Simply soak or fill the toys with water and place them in a freezer overnight to cool and soothe.

Chillax Cooling Pad

The Chillax Cool Pad is designed to keep pets cool and comfortable. Activated by the weight of a dog this pad will maintain a temperature slightly lower than the ambient for up to three to four hours of constant use. It automatically recharges itself as the pet moves.

This pad is ideal for beds, crates and travel.
Medium - 40 x 50cm Large - 60 x 90cm

Please note the packaging shown for the Cooling Mat is a sneak peak of the packaging to come in 2019. Any orders for the cooling mat before then will receive the old packaging.

Accessories

The range comprises of a number of items including coats, harnesses and lights made from high visibility material to ensure dogs are easily visible when out on dark evening walks. There are also a number of flashing and high visibility collars available as well as collar lights! All collars have a D ring for leads, are easy to adjust and are available in three sizes. The flashing collars have three light modes which include both static and flashing cycles.

The Silicone Collar Light accessory is designed to help keep your pets safe and visible in all light conditions. It's easy to attach to collars, leads and harnesses. It comes with a three-way light setting: multi lights, blinking and steady.

Rosewood's glow in the dark football has been purposely made to fit ball launchers so that pet and owners are able to continue to play in the low light. It is made of lightweight durable rubber and it also squeaks for added fun and play!

Additional must-haves for when planning to take a pet away on holiday or a road trip in the car. A new addition to the range is the Silicone Training Treat Bag which is made from high grade soft silicone. It is compact and portable as its clip allows you to attach it to most objects whilst on the move and training the pet. It has a magnetic opening so it keeps treats and accessories secure in one place whilst also easy to reach.

A fantastic range of travel products when planning to take a pet away on holiday or simply for a road trip in the car. The Drinking Bottle is a convenient bottle of water which doubles up as a portable drinking container. Perfect for walks and travel as it clips on to a belt or bag.

ACCESSORIES

For 2018, we have introduced new colour coordinated travel products with brand new packaging. Each product has its own unique function and have been specifically designed for pets on the go, on holiday or on a road trip. The Portable Leaf Travel Bottle and the Collapsible Travel Bottle are both portable drinking dispensers with an added carabiner, perfect for attaching to leads, bags and travel crates.

The Zip Up Dual Bowls are compact and portable, ideal for food and water. After use, simply collapse the bowls and zip up its case and you're ready to go. The Foldable Silicone Mat effortlessly folds in itself after use and stops the pet's bowls from skidding whilst they're eating or drinking. The Easy Pick Up Waste Scooper does just that, easily picks up waste of various sizes as its silicone base expands to the user's requirements.

Agility

Our agility range is perfect for a family's own fun and enjoyment in the garden but equally as good to use for practice for those looking to join an agility club. The kits are lightweight, for safety, and are quick and easy to assemble. All, except the Flyball, come with a carry bag and the Hurdle and Hoop Jump are adjustable for different sizes and abilities. The packaging also details how to use the equipment with additional training tips so owners and pets get the most from each piece. Why not persuade your customers to try one product first to help build confidence, then, if desired, add more pieces to create their very own agility course?

Combs

A selection of combs to remove knots and tangles as well as combs specifically designed to tackle problems such as matting, fleas, nits, debris and ticks. Regular combing is recommended as it stimulates a coat's natural oils leading to a healthy, shiny coat.

Our de-matting comb is designed to remove matts with minimal loss of coat length. The blades are specially shaped for effective cutting and feature small teeth which collect loose hair.

Our tick remover is vital for easy and effective removal of ticks. It allows pet owners to ensure that any ticks are gripped securely and can therefore be carefully lifted away from the skin and disposed of.

CATWALK COLLECTION

Natural Cat Scratchers

The Rosewood Catwalk Collection includes a wide variety of scratchers and climbers. The lifestyle colours and materials used complement most home decors and will look subtle yet stylish in any room.

The Bay is a four-level, carpet covered piece of furniture with jute rope scratching stations and a feather teaser. It is modern and stylish, made with specially selected neutral colours. Strong and sturdy construction.

The Caraway has three seagrass covered posts, carpet perches and a seagrass teaser, all held together by a strong, natural wood structure.

The Turmeric is a stylish charcoal carpet post, perfect for cats to stretch and scratch. It has a natural wood finish, giving it a premium look and feel.

Silvertine Cat Toys

Fun cat toys which contain silvertine, a natural attractant known to induce a very playful reaction in cats; it's even better than catnip!

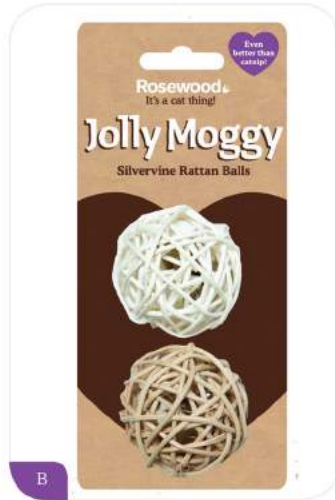

Silvertine is a non-toxic plant which is grown in mountainous areas of Japan. It is known to give cats a similar euphoric response to catnip, honeysuckle and valerian but is typically more intense and lasts for approximately five to twenty minutes.

The range includes plush fur teasers for interactive fun as well as silvertine mice, plush balls and rattan balls, all perfect for encouraging healthy exercise and play.

Bedding

Pet owners loved viscose fluff, but it's quite rightly fallen out of favour with those in the know, leaving only paper as a safe alternative...until now!

Our Soft 'n' Safe Bedding is 100% natural fibres from the seed pod of the Kapok tree. The short fibres won't twist and string and are also hypoallergenic, antibacterial and biodegradable. The Pods are perfect for DIY furries: give them a squeeze to crack the pod and the pet will do the rest. They even include edible seeds.

SMALL ANIMAL - ACTIVE TOYS

Just because pets are going to chew them it doesn't mean wooden gnaws cannot be fun and colourful – after all it's not the pet that's going to be putting their hand in their pocket!

Small animals love, even need, to chew on wood and our fun toys allow them to satisfy this urge. We've also created designs to stimulate them mentally, so our Grape 'n' Gnaw can be loaded with treats and sliced vegetables can be wedged into our chunky 3D Carrot.

The colourful designs and packaging have been created to stand out in store and appeal to your customers, both young and old.

All products are made from pet-safe dyes and materials and are priced to sell!

Corn, Loofa, Seagrass & Sisal Toys

Boredom Breaker toys made with a variety of natural materials to give pets an appealing mix of textures. Fun to chew, gnaw, scratch, throw and generally destroy!

Our Toss 'n' Treat Roller is ideal for all the above but with the added appeal of pet owners being able to fill it with small treats which are then randomly dispensed as pets throw and roll it around their home.

Our Bunny Fun Tree and Carrot Play Patch have many imitators, but these are still the original and the best!

Fun 'n' Forage

With all the features of the Woven Rollers, including not being made with any glue or plastic, these five toys are also great for challenging pets to forage for food and treats. Each has areas for hiding or stuffing with 'Naturals' treats or slices of veg. They can be used on the floor but can also be hung with the supplied metal clip. As with the Rollers each toy is ideal for most small animals, but these larger toys are especially good for rabbits and guinea pigs. All the toys are handmade by village co-operatives in the Philippines and are designed to be durable but destructible.

Edible Activity Shacks & Toys

Rabbits and rodents need to gnaw and our edible toys and dens are ideal for the task as they are 100% safe to eat. Each one is composed of finely chopped pine wood blended with alfalfa, vegetable glycerine and starch. However, unlike similar products, we don't add unhealthy honey and all with the exception of two, we don't use any artificial colourants as we believe 'au naturel' looks better!

As well as two sizes of play log and straw-roofed shack - small for hamsters and XL for guinea pigs, chinchillas and rats - we also have two sizes of hanging play chains which are great for hiding treats in to challenge both furry and feathered pets. Our unique Treat 'n' Gnaw Logs, which are peanut flavoured and have tasty treat fillings, are in two sizes to keep the smallest and largest of pets busy for days.

Activity Tents, Tunnels & Play Ball

Our Pop-Up tents and tunnels are unique as pet owners can join two or more tunnels together and join a tunnel to a tent with their integral Velcro tabs. Both products are ideal for indoor or outdoor and provide pets with shelter from rain or sun. The tents, which come with a removable mattress and run ties, are sized 31cm square for the medium and 36cm for the large, while both tunnels are 90cm long.

The polyester fabric is wipe-clean and comes in two popular colours.

For hamsters we have a 28cm long crinkle tunnel, which is also ideal for rats, plus a high quality, shatter resistant ball which is nested and can merchandise on-shelf or hanging.

SNUGGLES

Affordable luxury is the order of the day (or night!) with our super soft plush beds with signature embroidered paw print. The plush versions are still practical with tough, wipe clean fabric bases as well as being machine washable to 30°C. For muckier rabbits, guinea pigs and ferrets we also have our Tough 'n' Mucky bed made with a durable, wipe clean, outer fabric that's coated inside to stop water and urine reaching the filling.

SMALL ANIMAL - FOOD

NATURALS

Meadow Menu Main Diets

In 2006 our Naturals brand of small animal treats broke the mould; finally consumers could offer their pets healthier, more stimulating and better quality treats. We then took this principle and applied it to our breakthrough range of main diets. Meadow Menu offers pet owners the chance to feed their pets a better diet that's closer to nature. On top of this the recent growth in the popularity of grain free feeding has been the most significant change to the dog food market since the move from wet to dry and this change is now happening with the diets of fibrevores!

Rabbit

Chinchilla & Degu

2kg | 4pk | 19395

Experts and owners are increasingly concerned about obesity and poor digestive and dental health in rabbits, guinea pigs, chinchillas and degus. The best and simplest way to address all these concerns is by improving a pet's diet. Our three Meadow Menu diets:

- use over 40 natural and grain free ingredients designed to promote good digestive and overall health
- are blended into Quad-shaped pellets, loaded with fibre-rich grasses, which are designed to wear growing teeth and stop selective feeding
- contain no added sugar or sugar-rich ingredients
- are cold-pressed to retain more of their nutrients and encourage the pet's digestive system to work as it was designed to!

Why Grain free?

Most manufactured foods for fibrevores contain large amounts of processed cereal grains and very few other ingredients. Why? Because grains are cheap and rich sources of energy, but also because to create extruded foods you need starch to 'glue' the ingredients together. The heat used also pre-processes the nutrients so they are easier to digest and more of the energy is absorbed by the animal - sounds good, but it's not. Put simply our small animals' digestive systems have also evolved to 'work' at extracting nutrients from unprocessed, low energy, fibre rich food like meadow plants and grasses slowly, throughout the day. Feeding energy rich, easily digestible food to fibrevores is the equivalent of putting aviation fuel into a diesel tractor!

As pets get their energy too easily and quickly from grain based diets, so they often eat less essential hay which can also result in digestive issues. Additionally, if excess starch, sugar and protein is not completely digested in the small intestine it can cause serious short and long term issues for the rest of their digestive system. Grain-based diets also don't provide the same vital teeth-wearing abrasion that hay and grass based diets do which can lead to potential dental issues.

Finally, by leaving cheap grain out we can pack more of the good stuff in. This is important as different plants contain different macro and micro nutrients. These included beneficial phytochemicals (natural chemical compounds found only in plants) including a wide variety of flavonoids, antioxidants and vitamins. So by using over 40 different meadow plants, grasses, vegetables and seeds pets are provided with a wider variety of these important nutrients.

SMALL ANIMAL - FOOD

Worth knowing.....

Our meadow hay is barn dried to keep its colour and minimise the loss of essential nutrients like beta carotene and vitamin E. Additional warm air drying and dust extraction also helps to prevent mould spores and respiratory issues for both owner and pet. It also contains over 20 different types of meadow grass, plants and herbs, making it great for health and palatability, including:

Tall Oat Grass	Sorrel
Orchard Grass	Dandelion
Downy Alpine Oat Grass	Plantain
Smooth Stalk Meadow Grass	Wild Chervil
Velvet Grass	Red Clover
Soft Broom Grass	Tufted Vetch

....the amount of hay that we gently compress into a typical 70g cookie

Meadow Hay Cookies

Pet owners are increasingly aware of the importance of feeding their pets a good quality, main diet hay, so much so that the hay market is now divided into two: cheap, bedding hay and high quality forage. For our cookies we take high quality meadow hay from a family farm in Bavaria and compress it into convenient and easy to feed portions.

For the pet owner our cookies are easier to store, less messy to feed and result in less waste. They also contain less dust and allergens.

Pets benefit from the fact that unlike single species grass hays, like Timothy, our hay comes from managed meadows which contain over 20 different species of grass and edible plants. This improves the overall appeal and palatability, plus, ensures the hay provides pets with a better variety of beneficial phyto-nutrients such as antioxidants and flavonoids. The cookies also mean it's easier to ensure pets are given sufficient hay each day which is important for dental health, healthy digestion and overall health and wellbeing.

Our hay cookies give you the opportunity to free-up valuable retail and storage space as they take up only half the volume of most other compressed 1kg packs. The packaging clearly communicates the importance of feeding hay which increases usage and promotes sales under a brand with strong consumer awareness and loyalty.

Treats

Our Naturals brand has always been driven by our desire to deliver your customers and their pets a better quality treat made from 100% natural ingredients for better health and wellbeing. Many of our treats offer a real feeding challenge to stimulate pets and reduce boredom. We've also looked to bring real innovation to the market and make pet enrichment a key factor when creating new products. Our 'Grainless' treats, below, are one such innovation.

Our herbal/salad mixes are amongst our most popular treats. Many have copied us but no one can match our quality and range of ingredients let alone our value for money (just compare our pack weights and percentages of key ingredients with 'alternatives'!). These treats are ideal for rabbits, guinea pigs, chinchillas and degus and are healthy enough for daily feeding: indeed the unique flavonoids; plus being naturally rich in vitamins, minerals and fibre, mean these treats can be really beneficial to a pet's health.

Market Research and customer feedback tells us that more and more pet owners are looking for treats that really last and make their pet work for their reward. So rather than offering simple variations on the usual sticks and extruded treats in numerous brands, with Naturals you have the potential to offer a wider variety of treats to your customers encouraging multiple purchases and more money in your till! All the treats below are great examples of this.

One of the stars of our Naturals range is our unique Nibble 'n' Dig Meadow, which is a real slice of cultivated meadow full of herbs, grasses and edible flowers; rooted in loam and carefully dried. Ideal for allowing rabbits, Guinea pigs, chinchillas and degus to dig and forage like they would in nature.

New for 2018 we introduce the Hide 'n' Treat Maze made from our signature hay coated, edible parchment board. Some of the many tubes and rings are already prefilled with a hard to remove carrot based filling and marigold petals. Owners can fill any of the others with veggies or other treats. Ideal for pets of all sizes.

Our I Love Hay Cubes are fibrore heaven: an edible parchment cube, coated in meadow hay and then filled with meadow hay and marigold. Pets will love the challenge of destroying the cubes to get to the filling. The large is ideal for rabbits, Guinea pigs, chinchillas and degus; the new and improved medium is for all small animals.

Small Animal Homes - Abode

Our Abode for dwarf hamsters and mice is a high quality, plastic home with narrow, powder-coated bars in the roof for ventilation making it completely escape proof and even suitable as a breeding cage. It's stylishly appointed with a solid exercise wheel, food dish, sleeping area (which could also be used for sand baths) and our easy to use 'drop in' water bottle. The smooth, solid base is deep enough for an extra deep layer of litter for burrowing.

In addition to our 'classic' blue and orange we also have a stunning silver with translucent blue accessories and a hot, 80's inspired (and now back on trend) vision in pink, green and orange.

All three are presented in eye-catching and informative full colour boxes.

Small Animal Homes - Abode Gerbilarium

The gerbil version of our Abode has all the features and benefits of the dwarf hamster Abode, minus the wheel, but with a much deeper base, chew-proof metal ladders and an all metal wire roof hatch.

Gerbils love to dig and burrow tunnels and our clear base is fantastic for filling with litter to allow them to fulfil this need. The smooth curves of the design don't just look stylish - they also make the home as gnaw proof as possible.

When it comes to cleaning the cage it's really easy as the top holds all the mezzanines and accessories so everything is held in one place when you remove it to clean the base. This larger home is also ideal for dwarf hamsters and mice but not Syrian hamsters. The contemporary solid and translucent colours make the home appealing to all ages.

Small Animal Homes - Pico

Fun and funky for both pet and owner: the Picos not only look great but are also packed full of extra levels, ladders, a tunnel, wheel and even a unique loft hide with easy (but secure) access. These high quality homes also have a 'drop in' water bottle, food dish and a deep base to help ensure litter stays in the pet's home. The 8.5mm bar spacing means that the homes are suitable for mice and dwarf hamsters from 6-8 weeks of age as well as Syrians.

As with the Abodes, the Picos also have all accessories and parts built in to the top making cleaning the base really easy.

Small Animal Homes - Pico XL

More and more pet owners are looking for bigger and better homes for their hamsters, so our Pico XL is ideal being 50% larger than the standard Pico. We've achieved this in the most practical manner for most consumers by making the homes taller and adding extra ladders and levels to create an even more exciting and feature packed home.

The XL's have all the same features as the standard, but with a knock-down design they pack down and take even less storage and shelf space in store. The knock-down design doesn't compromise on quality either: we don't use chewable, plastic clips to connect the panels and the gaps at the corners are even narrower than on the main bars, so the XL is still suitable for mice and dwarf hamsters over 6-8 weeks of age.

Small Animal Homes - Eco Pico

The Eco Pico is a major innovation in hamster homes: not only does it look unique, it is unique, as we've replaced over 99% of what would normally be made from fossil fuel based plastics with a very special material made from bamboo fibre. Bamboo is a fast growing and sustainable resource and the final material is biodegradable after its useful life, hence Eco. Better still, from a practical and quality point of view, the bamboo resin we use is also much thicker and offers greatly superior resistance to gnawing than traditional plastic materials – a real selling point to most pet owners.

As well as providing pets with multiple levels to explore this home also has an extra deep base which makes pets feel more secure and helps keep their litter in their home. It also comes with a solid wheel, food dish and glass 'drop in' water bottle. The two mezzanines are then connected by flexible, real wood bridges and ramps accentuating the 'natural' feel. The Eco Pico has 4-8mm bar spacing and is designed for Syrian hamsters as well as dwarf hamsters and mice from 6-8 weeks of age. The cage comes in an attractive and informative box but we recommend you display at least one cage so customers can fully appreciate the difference in material quality over traditional plastic homes.

Woven Wonders & Bamboozlers

Our range of stimulating, earth friendly parrot toys are hand-made by village co-operatives (most of which are certified Fair Trade) in the Philippines using only natural materials with no glues or plastics.

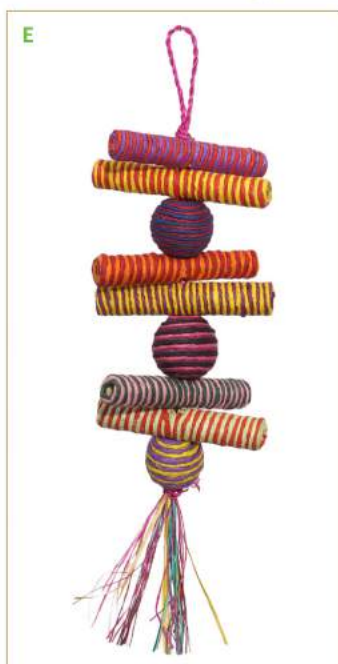

Parrots of all sizes need stimulating to prevent boredom and toys made of a mixture of stimulating materials which encourage foraging and can be shredded are ideal for this: so all the toys are designed to be durable yet destructible using materials including palm leaf, abaca (rope made from banana leaf fibre), oyster shell, corn leaf and coconut shell - many of which birds might encounter in the wild!

The Woven Wonders are principally made from woven palm leaf to create a variety of wonderful toys, including piñatas stuffed with more palm leaf and abaca fibres, whilst the Bamboozlers are also made with tough bamboo. For 2018 we've introduced five new designs some of which use coffee wood as a key material.

The 25 toys are sized as follows (every tag has a size guide and all toys are supplied with a cage clip):

PetsBuddy™ GOATSMILK FOR CAT

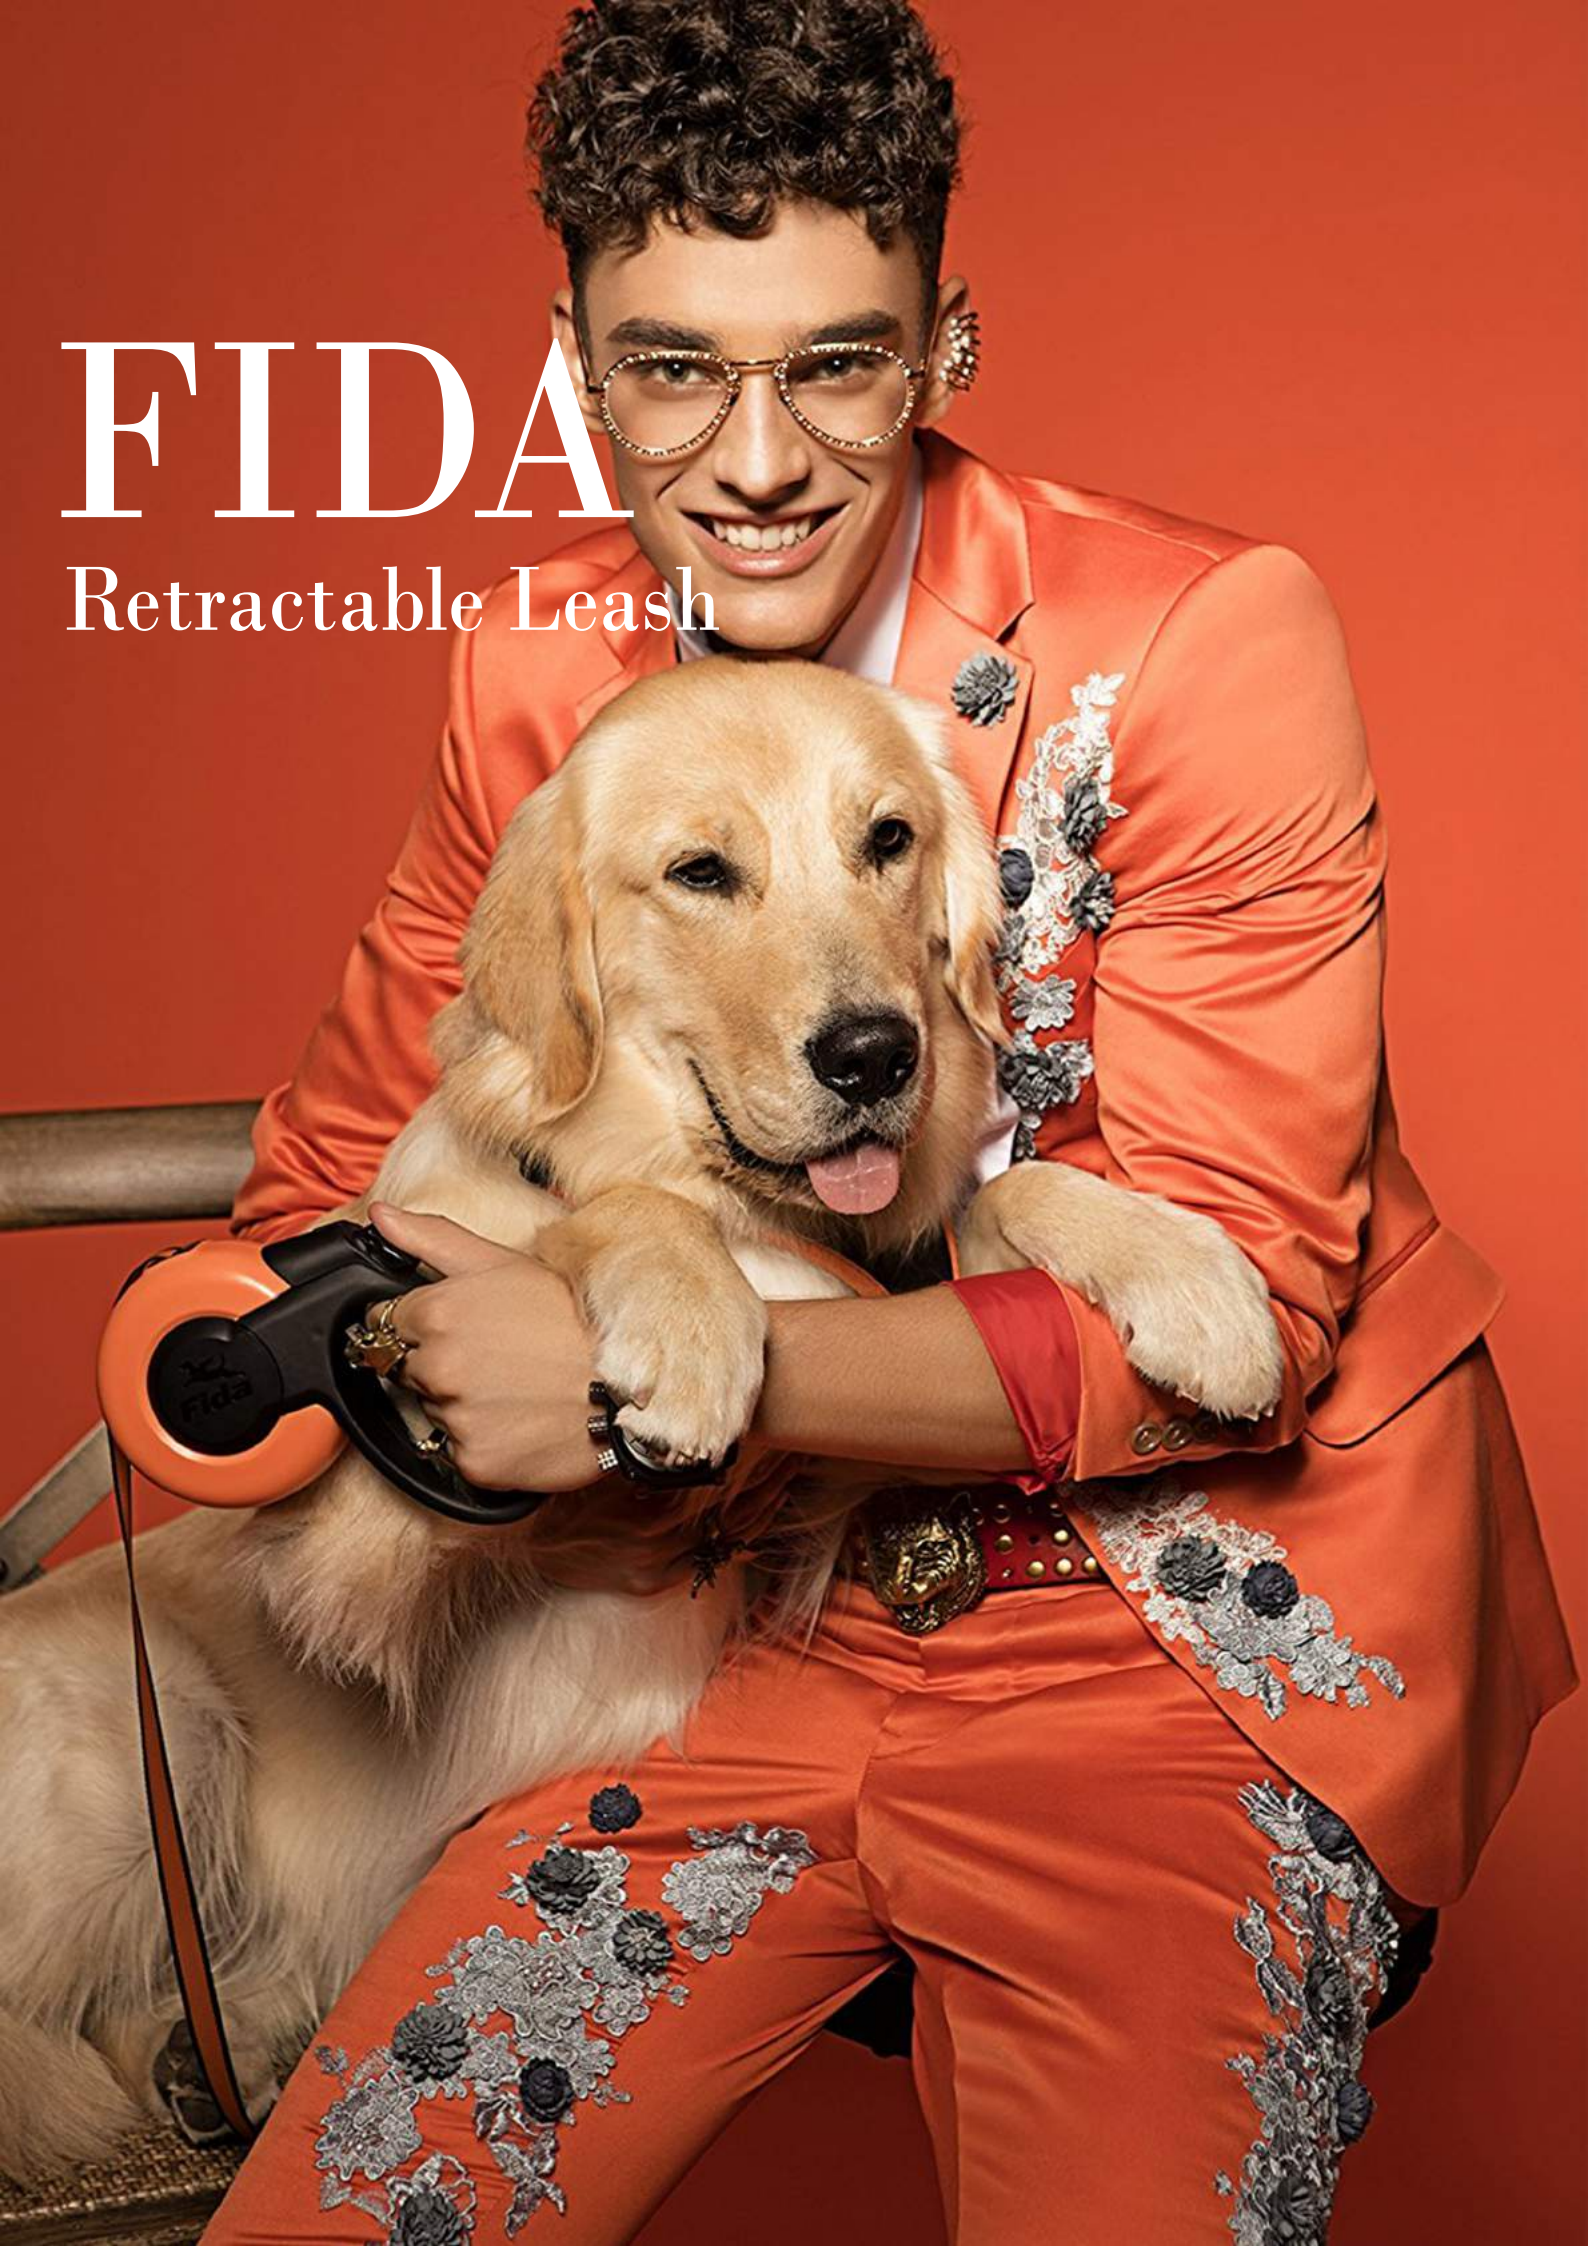

A kind of nutritionally balanced dairy supplement for cats of all breeds. As our unique Taurine Enriched Formula closely resembles cat milk, which formulated to match the average composition of cat's milk, with added vitamins, minerals and essential fatty acids (Omega-3 and 6). It is perfect to feed orphaned kittens or when the mother's milk is limited. We also add high levels of the sulphonic acid taurine with only moderate amounts of fat and carbohydrate to aid in prevention of blindness, hair loss, tooth decay and heart failure.

PetsBuddy™ GOATSMILK FOR DOG

Applies an advanced Premium Low Lactose Formula, which is a nutritionally balanced milk substitute for your dogs of all breeds. It is also a perfect formula for those growing puppies required a source of highly digestible nutrients. This complete food supplement with added vitamins, minerals and essential fatty acids (Omega-3 and 6) supports your full range nutritional feeding, while protecting sensitive digestion with low level in lactose.
